Revision of Appendix I to Personal History Statement.

1. Reference is made to your memorandum of 5 December 1952 with proposed new language of certification with respect to the organizations listed in Appendix I of Personal History Statement which includes reference to the spouse of the applicant.

2. It is my opinion that the proposed language of certification seeks to develop information which comes within the purview of the standards contained in Executive Order 9835, and accordingly, there is no legal objection to the proposed language.
